

Highway to monopoly

The background of the slide features a dark teal gradient with a faint, semi-transparent financial candlestick chart. A red line is overlaid on the chart, showing an overall upward trend with some fluctuations. The chart is positioned in the lower half of the slide, behind the text.

Team B

Less fuel consumption

1.2\$ per km

Autopilot functionalities

Less maintenance costs

\$ 20,000 per 15 years

Market potential

5M vehicles x \$ 150,000

\$ 750 Billion

Less Emissions

-4 x CO2

Improvements on Tesla cars

CARS COST REDUCTION

With the same battery performances of current cars models

CARS PERFORMANCES IMPROVEMENT

**BATTERY
PERFORMANCES**

At the same cost
of current cars models

THE LONGEST LASTING BATTERIES ON THE MARKET

The electric cars with
the most durable
batteries on the market
